Our Services

Substation EPC Project
Engineering, Procurement & Construction of 400kV/230kV/132kV/33kV/11kV AIS/GIS Substation

Engineering Design, Calculation & Approval
400kV/230kV/132kV/33kV/11kV AIS/GIS Substation Engineering Design, Calculation & Approval from the end user

Erection, Testing & Commissioning
Erection, Testing & Commissioning of 400kV/230kV/132kV/33kV/11kV GIS/AIS Substation

EPC of Solar Power Plants
Design, Supply, Installation, Testing & Commissioning of Solar Power Plant along with Civil Construction

Turnkey Solution of Arc Flash Protection System
Design, Supply, Installation, Testing & Commissioning of Arc Flash Protection System

Mesh Earthing Works
Design, Supply & Installation of Substation Mesh Earthing System

Turn-Key Solution of Telecommunication, NMS & SCADA Integration of Substations
Design, Supply, Installation, Testing & Commissioning and Integration of Power Plant/Substation SCADA System with National Load Dispatch Centre

Quality Engineering & Services Keeping the Standard High

Supply of Substation Equipment
Supply of any sort of Substation Equipment like Transformers, Switchgears, LA, Protective Relays, Control Relay Panels, Battery Charger, Battery Bank, ACDB/DCDB Outdoor MK, GIS/AIS termination kitsetc

Cabling Works
Medium/High/Extra-High Voltage Power Cable Laying, Termination, Testing & Commissioning

Yearly Maintenance
Yearly maintenance of Power Plant & Industrial Substation
